NEBOSH HSE Certificate in PROCESS SAFETY MANAGEMENT

+974 4466 4321

LEADERS
TRAINING CENTRE

This qualification is designed to equip delegates with a broad understanding of the accepted principles and recognized industrial practices for the management of process risk.

Who is it for?

The NEBOSH HSE Certificate in Process Safety management benefits companies working in the process industries such as oil and gas, chemicals, plastics and pharmaceuticals who are seeking to implement effective process safety management.

How is the qualification assessed?

Learners will complete a multiple choice question assessment. The assessment can be completed online, although a paper-based assessment is available until April 2022. We will be able to confirm which version of the assessment you are registered for. A qualification parchment will be sent following successful completion of the examination.

Entry requirements

There are no entry requirements for this qualification, but it is recommended that learners should already have an underpinning knowledge of health and safety issues, and many will have gained another NEBOSH qualification.

It is also important that learners have a suitable standard of English language in order to understand and articulate the concepts contained in the syllabus.

Exemptions

No exemptions are allowed for Unit PSM1.
